

Supply List for Math Masters (Math Intervention Course)

2017-2018

Required:

- spiral notebook OR composition book to be your math journal...I recommend getting one with graph paper...
- Of course you will need pencils!
- 1 1/2" or larger binder preferably with dividers for handouts
- notebook paper and graph paper to have in the back of your binder
- 2 folders with pockets (one will go in your pocket folder and stay at school and the other is for keeping up with current assignments)
- chromebook or other computer with wi-fi access
 - Headphones

Highly Recommended:

- TI-84 graphing calculator

Yes, the school will provide you with a calculator to use while in my room (never to leave my room!) or to borrow for the ACT to promptly return, but you will highly benefit from purchasing your own calculator! You will need it for work we do in class and it can help you with work at home. You will need it for the ACT and for most, if not all, of your college math courses.
